Additional Required Application Information

As part of your application to become a Music Examiner we require the following additional information:

- All applicants must be able to offer a reasonable level of piano playing. Please give an indication of the standard of your piano skills (if this is not your main instrument)
- We would also like to know of any other instrument(s) in which you have a reasonable working knowledge.
- Availability – This is a major consideration in deciding whether to proceed with your application.

Examiners are expected to offer sufficient availability so we can allocate a minimum of 21 days of work per year.

Please could you indicate your likely availability, *particularly during the last 2-3 weeks of UK state school terms*, and give an idea of how much time you would see yourself giving to examining work per year.

- Please send *in handwriting* (not typed or word-processed) a brief statement which outlines your interest in graded music examinations, why you are interested in joining the panel of Trinity College London, and why you think you might be suited to the work.
