Integrated Skills in English – Interview component

You can use the conversion tables below to check what overall result a candidate will receive for their ISE Interview from their combination of letter grades awarded for each of the exam phases. For example, at ISE II a result of ABC = Pass with merit.

NB The letter grades can be awarded in any order, because all phases of the exam have equal weighting. Thus, using the example above; ABC, ACB, BAC, BCA, CAB, CBA, all give the same result: Pass with merit.

These conversion tables relate to the Interview component only.
