## Entry 3 rationale : Matteo

Assessment criteria		Mark	Rationale
<b>Whole paper – plan text</b>			
<b>1</b>	<b>1.1</b> Plan text for the intended audience	2	There is evidence of some planning which relates to one task, and it appears to show a chronological order which the candidate uses to answer task 1.
<b>Task 1 - form</b>			
<b>2</b>	<b>2.1</b> Produce content for the intended audience	4	Matteo provides a comprehensive and confidently controlled description of the accident, using a largely formal register and selecting sentence structures to support a report format.
<b>3</b>	<b>2.2</b> Structure main points in short paragraphs	0	There is no evidence of paragraphing in the text and therefore the candidate does not meet this assessment criterion.
<b>4</b>	<b>2.3</b> Sequence text chronologically	2	Although the text is ordered chronologically, only one example of a sequencing conjunction is used, namely <i>when</i> .
<b>5</b>	<b>2.4</b> Use grammar correctly	3	The candidate shows a fairly consistent use of grammar, eg. <i>Nick feel down and asked for help because his leg was in tereble condition</i> . A complex sentence is written using <i>when</i> to introduce the relative clause.
<b>6</b>	<b>2.5</b> Use punctuation correctly	4	Matteo uses punctuation with comprehensive control: full stops are used as boundary markers, commas are used to define clauses and the word <i>lucky</i> in speech marks is possibly intended to heighten effect.
<b>7</b>	<b>2.6</b> Spell words correctly	2	Although a wide range of specialized vocabulary has been used, eg. <i>reversing alarm/ loading bay /company medic</i> , there are some basic spelling errors, eg. <i>sic/feel down/stoped</i> . Spelling is inconsistent and only meets the criterion at a minimal level.
<b>8</b>	<b>3.1</b> Complete a form with open and closed responses correctly	3	The closed response is incomplete as the candidate's surname is missing, however the open responses are complete and are fairly consistent .
<b>Task 2 - article</b>			
<b>9</b>	<b>2.1</b> Produce content for the intended audience	3	Matteo addresses the task's requirements, i.e. he describes a special meal, the time before the meal and then its significance. However, there are a number of details included which are inappropriate.
<b>10</b>	<b>2.2</b> Structure main points in short paragraphs	1	There may be one attempt to form a paragraph at the end of the text, but this is unsuccessful. There is no further evidence of attempts to paragraph.
<b>11</b>	<b>2.3</b> Sequence text chronologically	2	There is only a minimal use of sequencing language, i.e. the two sequence markers <i>before/during</i> .
<b>12</b>	<b>2.4</b> Use grammar correctly	2	Although Matteo demonstrates two instances of compound sentences in the text, ie. <i>It was realy very special diner for me and I was so happy/ I didn't say my name because I was excited</i> , there is no use of complex sentences. There is some control over tenses which are used to demonstráte different time periods.

13	2.5 Use punctuation correctly	3	Punctuation is fairly consistent, full stops are used as boundary markers and followed by capital letters. Commas are used correctly for lists, e.g. <i>our families ,my job, her job.</i>
14	2.6 Spell words correctly	2	Spelling is not consistent for the level, e.g. <i>hava/realy/resieved</i> and consequently the candidate meets the criterion at a minimal level.
<b>Task 3 – text message</b>			
15	2.1 Produce content for the intended audience	4	The candidate has used a range of features, e.g. apologies, suggestion and the right degree of formality for a text message. There is comprehensive and consistent control.

Matteo achieves 37 marks out of 60, which is not enough to pass. He also does not achieve a 2 for AC 2.2: Structure main points in short paragraphs.
