8	1.2	**3**	She demonstrates good back-channeling and responds reasonably well to the key information.
9	2.1	**3**	Although her pronunciation is comprehensible, hesitation affects the flow of the utterances.
10	4.1	**3**	She makes relevant contributions and responds reasonably well, although she needs occasional support.
11	4.3	**3**	She makes effective requests reasonably well. However, she needs examiner support to do so.

Task 3 : Group discussion			Rationale
12	1.1	**3**	She appears to follow the gist reasonably well, but there is no evidence that she understands the whole conversation, and she responds occasionally.
13	2.2	**2**	Her message is conveyed at a minimum level with the same examples of language of the level, and she contributes few utterances.
14	3.1	**1**	Her attempts to give a description are unsuccessful.
15	3.2	**1**	There is evidence of an attempt to meet the assessment criterion but it is incomplete and unsuccessful.
16	4.1	**1**	She attempts to make contributions but they are not sustained and therefore not successful.
17	4.2	**1**	Elena is generally unable to express simple views so her contribution is incomplete.
18	4.3	**1**	Although she asks one question, "how many… in class?", there is no other evidence of an attempt to obtain information.
Whole exam			**Rationale**
19	1.3	**4**	She follows all instructions with ease.

Elena achieves 52 marks out of 76, achieving over two-thirds of the total marks, and every assessment criterion at least once. She gives a particularly strong performance in the individual stage of the exam.
