Grade 5 theory
model answer paper
for November 2013

Introduction and notes
This answer paper has been created to demonstrate the correct answers, or those which would attract the highest marks. Where it is possible to give an exact answer, this has been done. Where there are multiple correct answers, these may also be given. Where an answer is open ended and/or creative, then an indicative answer has been given to show the type of response that is expected.
