HOW DO I SCAN AND COMBINE DOCUMENTS?

In order to assess a candidate's performance in a Rock & Pop exam, the examiner needs to have copies of all the songs that are being performed. A copy of the song must be uploaded – this can be either a full score using staff or TAB notation, or a lead sheet with lyrics, chords and melody line.

The document should be uploaded as a single PDF file. The filename should include the name of the artist followed by the title (eg *The Clash – Janie Jones*).

For help on how to best scan and combine documents, refer to guidance for your device and operating system.

If you are using an iPhone or iPad, see Apple's [support section](#). Apple also provides guidance on how to use an external scanner with a Mac.

[Google Drive](#) may be used to scan and combine documents using an Android device.

There are also other scanning apps available through the App store or Play store.
