

NEW SUPPORT BOOKS FOR IMPROVISING AND PLAYBACK AVAILABLE NOW

A brand new series of books supporting the session skills part of our Rock & Pop exams for drums is now available.

The books provide 10 improvising examples and 10 playback examples for each grade, in styles of music that may be encountered in the exam. Each book also contains preparation tips and an audio CD of backing tracks for the example tests.

Improvisation and playback are two essential skills for rock and pop musicians. By developing these skills, students will equip themselves with the tricks of the trade to help them in their careers.

INNOVATIVE QUALIFICATIONS FOR ROCK & POP DRUMMERS

Performance is at the core of our Rock & Pop qualifications for drums, reflecting the way drummers learn today.

Whether they are self-taught or taking lessons, learning for fun or heading for a career in the music industry, these exams will help drummers develop valuable playing skills and achieve their musical ambitions.

With graded song lists spanning a range of artists including Green Day, Kings of Leon and the Rolling Stones, drummers can learn and have their achievements formally recognised while learning the music they love.

Songs have been carefully selected to help students develop specific skills such as rhythmic control in 'Airbag' by Radiohead or buzzes and fills in 'White Room' by Cream. Session skills help to develop improvisation and playback skills.

In the exam, students play three songs and complete one of the two session skills. With options to include an original song and to perform unaccompanied, drummers can make the exam their own and show off their individual talent.

Support for teachers and students

Our YouTube channel is an ever-growing resource of over 130 demo and support videos.
